Sykes, J. Poppleton, T. Norcott.

As usual, there will be a Christmas issue of the "Ramblers' Rumblings, and the annual call for contributions is again made. Please co-operate and send your literary (?) efforts, jokes, funny drawings, gossip, etc. to the Secretary, "Walney", Ornskirk Grove as soon as possible. Remember, we rely on you all, and the better the response, the more successful will be the 1949 issue of the "Rumblings."

Everyone who went to the October Camp at Nsuzi agrees that, at last, the ideal camp site has been found. The week-end was a great success, and catering arrangements were excellent. The Hammersdale hike was well supported, and enjoyed by everybody - even by Eve, who was almost roasted alive. On the hike to Gezingane, a favourite spot of by-gone Ramblers was discovered - Caravan Ridge - from the top of which the country for miles around can be viewed. And why did you not turn up to the Hobo Dance? You missed a good evening's fun, as well as a horrific vision of a Frankenstein creature that made even the most hardened Ramblers swoon.
